## drinks often overlooked

### **madeira** (60ml)

wine from the island of madeira near the coast of africa discovered completely by accident when one ship going to the west indies came back with unsold madeira wine that had changed completely due to the long and hot voyage across the atlantic. madeira is virtually indestructible and has an ability to age that is unsurpassable by no other wine in the world.

1992 pereira d'oliveira madeira 38  
malvazia sweet frasqueira

### **fondillon** (60ml)

this is a very rare wine hailing from the alicante region on the southeast part of spain made entirely from monastrell which is harvested super late allowing the grapes to raisin. this wine is incredibly complex. on the nose you have combination of sweet caramelized fruit with raisin, dates and propolis, but don't let that fool you, this is a dry wine!

## jean-francois ganevat

Known as “Fanfan” to his friends, Jean-François’ comes from a long line of winegrowers, dating as far back as 1650, although the family supplemented their grape growing with a dairy that produced milk destined for the local cheese, Comté, until 1976. After working both for his father and for the prestigious Domaine Jean-Marc Morey in Chassagne-Montrachet, Jean-François returned to the Jura in 1998 to take over the family domaine. With only eight-and-a-half hectares under vine, the family had seventeen different local varietals planted of both red and white grapes—an incredible amount of variation to consider for holdings of such small size. For such a fervent perfectionist and insatiable lover of details as Jean-François, the decision to have the domaine certified as biodynamic was a natural choice. Jean-François Ganevat is a master of his craft, one of the true magicians of the eclectic. To say that his grapes are spun into gold would not be far from the truth; they are entirely otherworldly.
